

Prosthetic Feet

Foot Shells

These foot shells have a natural, lifelike appearance and are reinforced with Kevlar for added durability. They can be used with other prosthetic feet to provide a natural, lifelike cosmesis. When ordering a foot shell, please specify which foot will be used with the shell, so that the appropriate shell can be shipped. These foot shells are available in Buff, Medium Brown and Tan. For a complete product number please specify style of cosmesis (womens, mens or juvenile), size, side and color.

FSHX-XXXX	Foot Shells

High-Activity Foot Shell

A foot shell is included with every Pathfinder® II, Trailblazer™ and Trailblazer MA purchase, but is also available separately. Sole has been reinforced for increased durability. The High-Activity Foot Shell is available in Buff, Medium Brown and Tan. For a complete product number please specify size, side, color, and heel height.

Product No.	Description
FSHA-XXXX-X	High-Activity Foot Shells, 23-31 cm

Full-Height Foot Shell

Ohio Willow Wood's high-activity foot shell is offered in a full-height version. The full-height ankle simplifies the fabrication process for cosmetic coverings. The foot shell design also decreases wear and tear on shoes. Sole is reinforced for increased durability. The foot shell is included with every Fusion™ and DuraLite™ purchase, but is also available separately. The Full-Height Foot Shell is available in Buff, Medium Brown and Tan. For a complete product number please specify size, side, color, and heel height.
