

OMEGA[®] Tracer[®] Systems

OMEGA[®] Tracer[®] Computer Requirements

For optimum performance of OMEGA Tracer software, Ohio Willow Wood recommends the below system requirements.

RECOMMENDED COMPUTER SYSTEM CONFIGURATION

CPU	Intel Core 2 Duo Processor (T2400) @ 1.83 GHz
RAM	1GB
DRIVES	120GB HDD / DVD-RW /R CD-RW/ Super-Light Scribe
PORTS	4 - 2.0 USB / 1- IEEE 1394 OR Fire Wire port / LAN / Wireless (Optional)
WIRELESS	802.11G
VIDEO	1024x768 SVGA at least 64K colors (24 bit color depth)
OPERATING SYSTEM*	Windows XP Professional with SP2

INTERNET CONNECTION

Broadband (Cable, DSL) or 56K Modem

Due to file sizes of software downloads, dial-up internet connections are not recommended.

* The OMEGA Scanner will soon be compatible with the newest Microsoft operating system, Windows Vista. Until then, it is necessary to use Windows XP Professional with SP2 operating system for the OMEGA Scanner. Call OMEGA technical support at 1.800.848.4930 with questions.
